**TOWU Supervisor Demographics**

**Primary Supervisors (Site Supervisors)**

Primary Supervisors: Also referred to as Site Supervisors, are licensed mental health professionals that are also State Approved to provide clinical supervision to Marriage and Family Therapy interns. The majority of the Primary Supervisors professionally identify mostly as Marriage and Family Therapists. This identity includes being licensed as a MFT, having obtained state board approval to provide supervision to MFT interns, and having a history of supervising MFT interns. Primary Supervisors generally work at the clinical site where students interact with clients and provide both group and individual supervision, which may include live supervision, case report, as well as reviewing audio/and video footage of clinical work.
